### Diplomatic Relations Resume . . .

## Panama Reaches U.S. Agreement

PANAMA CITY, (UPI) — Panama agreed early Wednesday to resume diplomatic relations with the United States, subject to negotiation of "all existing matters" issue between the two countries.

PANAMA broke relations last week for the first time in its 80-year history after fighting erupted in a dispute over the U. S.-controlled Canal Zone.

An agreement reached in talks sponsored by the Inter-American Peace Commission stipulated that negotiations will be initiated 30 days after diplomatic ties are renewed.

**THE AGREEMENT** did not re-

fer directly to Panama's demand for revision of the 60-year-old treaty under which the United States operates the Panama Canal. The United States was understood to have objected to such a reference.

But Panama accepted the agreement, considering it to imply that the canal will be discussed since that is the main outstanding issue.

**THE INTER-American Peace Commission** has invited the parties (the United States and Panama) to reestablish diplomatic relations as quickly as possible, a brief communication said in part.

"The parties have agreed to

accept this invitation and, as a consequence thereof, have agreed to begin formal negotiations which will be initiated 30 days after diplomatic relations are reestablished by means of representatives who will have sufficient power to discuss without limitations all existing matters of any nature which may affect the relations between the United States and Panama."

**THE PEACE Commission**, a five-nation group, was sent here Saturday by the Organization of American States to try to put a stop to a wave of anti-American violence by armed mobs in Panama.

### Utah's Governor Clyde Issues Call To Service

Governor George D. Clyde calls students of the West to prepare for public service. The moderate Republican who has spent seven years as Utah's governor will accompany the George Romneys and the Nathan Tanners to campus Friday.

In an exclusive University interview at the capitol Governor Clyde said, "I believe every student should memorize this quotation from Plato, 'The penalty that wise men suffer from indifference to public affairs is to be ruled by unwise men.'"

**"MY MESSAGE** is this, he said, tapping a paperweight for emphasis, "You are going to take over the responsibilities of the government. Become interested in politics."

The Governor settled back and continued, "Walk down the street and ask John Jones, the local banker, why he doesn't consider running for political office. Invariably his response will be, 'I have a good job. I can't afford to run for a city office.'"

"Personal gain and fear of subjecting oneself to public abuse are two major rea-

Governor George D. Clyde ... to visit Y with Romneys, will appear at assembly.

# Erhard Appeals To British or A United Europe Pact

LONDON, (UPI) — Federal Chancellor Ludwig Erhard Wednesday for a United Europe with British participation within Atlantic partnership.

ERHARD, who arrived for a 10-day official visit, made the appeal in a speech at a Mansion House banquet given in his honor by the Lord Mayor of London. Europe will remain a torso unless it is joined by Great Britain," he told the gathering of British and German leaders.

IN THE AGE of technology

the British Channel cannot be a line of division."

It was Erhard's first visit to Britain since he became Chancellor in succession to Konrad Adenauer last October.

ERHARD, who spoke in German, said Germany has proposed "a new initiative to prevent Europe from being strangled by technocrats."

It was a year ago almost to the day that Britain was shut out of Europe by the veto of President Charles De Gaulle of France.

# Russian Official Denies Claims

MOSCOW, (UPI) — Vladimir Starovsky, head of the Soviet Statistical Board, said Tuesday a recent estimate of Russia's economy by the U.S. Central Intelligence Agency (CIA) "was conjured up out of thin air."

"What rubbish has not been mentioned in this analysis!" He asked in an article in the government newspaper Izvestia.

He said the CIA estimated Russia's economic growth in the past two years at 3.2 per cent. The official claimed an overall growth of 5 per cent during 1962 "in spite of certain unfavorable climatic conditions for agriculture."

# Segni Calls For Bonds Between US-Italians

WASHINGTON, (UPI) — Italian President Antonio Segni told a joint session of Congress Wednesday that Italy wants to create a Europe tied to America by "indissoluble bonds of interdependence, of loyalty and solidarity."

IN A PREPARED speech in which he gave full support of the Atlantic Alliance, Segni said a United Europe is necessary for the stability and balance of the alliance.

"THEREFORE," HE said, "the

Atlantic Alliance, the Atlantic partnership and Atlantic unity are intimately related elements.

The Atlantic partnership (of equals as envisaged by the late President Kennedy) is a second step and European unity is the necessary premise to achieve it."

"But the Europe we want to create is a Europe tied to America by indissoluble bonds of interdependence, of loyalty and solidarity, bonds which must unite the peoples that live around the Mediterranean area."

Dr. Harvey L. Fletcher, "father of stereophonic sound," was made Wednesday night an honorary member of the Alpha Gamma chapter of Sigma Alpha Eta, a national speech and hearing fraternity for college students.

DR. FLETCHER, who is credited with doing the original research that led to the development of radio, television, tape-recording and stereo sound, began lecturing at BYU when it was only an Academy.

This man, a near-genius in the theory of sound began his teaching career as a physical education instructor.

HIS MEMBERSHIP to the national group was approved by the Executive Council of the national organization.

Sigma Alpha Eta established chapters of its unit on campuses with accredited speech and hearing therapy. Members of the group work with people of all ages, from pre-schoolers to college students, giving them therapy in the areas of both speech and hearing disorders.

"Our whole emphasis," said SAE president Dave Williams, "is teaching people to communicate more effectively."

# Preference Ball Concerns Coeds With Dress And Date Dilemmas

by Judy Hill  
Society Writer

The traditions in Heritage Halls have been ringing overtime this week. Anxious coeds have awaited that call that would confirm their dates to the Preference Ball.

As ecstatic girls announced that their "most preferred" had accepted their invitations, one pretty blonde met a sad fate. Preference time came around as her ideal opportunity to be introduced to her first string football hero.

She marched resolutely to prefer and returned to her apartment to proudly announce that her invitation to said hero was in the mail. It was only two days later when she dashed bright-eyed to ringing phone. Afterward she seemed away stunned. "He's married and has two children," was all she could say.

Then she sat down with a sincere look of self-disdain. "Oh, I should have known something was wrong when I wrote his address. It was Wyview Village."

Now that the big night is almost here, girls are concerned with those minor problems that go along with the Preference Ball. There is always the question of what to wear.

"I remember seeing one girl in a fabric store downtown last year," recalled one coed. "She

was clutching yards of shiny brocade and leading through a pattern book like 'her life depended on it.

"When a clerk asked if she could be of assistance, the poor girl fairly wailed. 'This morning I went to my closet for my dress so I could press it for tonight. I remembered that I had taken it home with me during Christmas vacation, and now it's hanging in my closet in Southern California.'"

"I often wondered how that dress came out," recalled the observer.

One girl in Robinson Hall decided to send an invitation to her most preferred attending Stanford University. She was excited to receive a card stating he "would be delighted to accept."

Her date will arrive by plane Friday in time for the dance—a preferred man delivered "air mail."

## First of Four Non-league Tilts . . .

## Cougars Take On Pioneers Saturday

With finals near at hand, the BYU Hoopsters will leave conference action for the next four weeks and concentrate on a pair of inter-sectional opponents in the form of Denver and Utah State.

DENVER IS THE immediate opponent as the Cougars journey to the Mile-High City to meet the Pioneers. The Denver crew presently isn't boasting about its record of four wins and eight losses but will be out in force in an attempt to upset the Cougars' apilect.

Thus far Coach Troy Bledsoe has been thoroughly disgusted with the play of his team, particularly on defense, which has shown an increasing inability to put two wins back to back. Denver has one claim to fame in its early season defeat of Arizona State 84-83, and would like nothing better than to beat another of the Western Athletic teams.

IN THEIR MOST recent action, however, the Pioneers were rude-take advantage of 60 percent accuracy from the floor to drop Denver 87-72. It will take some doing to recover from that shock by gametime this Saturday.

The mainpring in the DU ossab clock is junior forward Frank Mison. The smooth junior college transfer from Vallejo, Calif., is averaging 19.8 points a game through the Pioneers first twelve outings.

A RECENT RELEASE from the Western Athletic Conference has shown BYU to be high in all the statistical regions. John Fairchild is sharing the scoring lead with Wyoming's Flynn Robinson — each with 54 points.

Dick Nemelka, BYU's sophomore guard, leads the free throw shooters with a perfect 6-for-6 on the charity line. Fairchild and Ira Harge share the top of the league's rebounders with 12.5 per game.

IRONICALLY, WYOMING, the only team which didn't win a game last weekend, tops the league in offense with an 83.0 point

average after two games. New Mexico leads the defenses allowing 62.0 points per game.

The anticipated closeness of the 1964 WAC campaign was well demonstrated last week in the conference opener. BYU's 90-91 conquest of Wyoming accounted for the largest winning margin.

WHILE BYU IS CONCERNED with Denver and Utah State the next few weeks, the order of the WAC will open up the conference rivalry as heading for Hawaii and exhibition games with variety of Hawaii and teams in the islands.

# Pioneer Iemen Tackle Montana State Grizzlies

The Utah Valley Pioneers ice hockey campaign this Friday and Saturday with a pair of 8 p.m. contests against tough Montana State University at the Provo Gardens Ice Arena.

The Pioneers, who have only played one game this season—a 6-4 conquest of Salt Lake, begin a rough new year's schedule with the double-header against the Bruin Iemen.

Led by coach Dick Witcomb, an ex-National Hockey League, the Pioneers will tackle several Canadian opponents, including the Lethbridge on-stars, Berkeley and Stockton of the California loop and power-laden Denver.

Several new players have been to the roster this season, led by Ron Kline, Ed Mitchell, Ken Franchak and Ken Bray on of- fense and Don Saari and Norbert Haglund on defense. Jack Shovel- has taken over the goalie duties this season.

LEFT-TO-RIGHT: TIEK line are forwards Ed Neudeck, Har- vey Popick, Bud Tolman, Frank

Medgin, Phil Corian, and Frank Murphy with Mal Turner, Jerry Tumblin, Ted Haynes and Don Mills returning for action as de- fensive Iemen.

The Pioneer squad have spent a lot of ice time in practice sessions this season and should be ready for the classy Montana State sextet.

The Provo-squad is made up entirely of Brigham Young Uni- versity students, mostly Cana- dians but with several outstand- ing American prospects.

COACH PAIGE COMBS' Bruin squad are made up entirely of Canadian players from Montana State University and some pos- sibly extensive Canadian amateur hockey experience.

Led by starry center John Al- len and his two wingmen Ken Askin and Barry Turner the Bruins will form a tough combi- nation to stop. The starting de- fensemen will be Dunc Gillespie and Jim Hant with either Roy Silvers and Jim Border slated to start in the goal position.

Utah Valley Pioneer defensemen Jerry Rumball and Mal Turner back an attempted thrust by Denver All Star forward Bill Abbottin last year's action. The Pioneers tackle MSU twice this weekend at the Winter Gardens Arena.

They've Been Warned...

## Reporter Not Impressed By TV's Smoking Crisis

HOLLYWOOD, (UPI)—It is difficult to be impressed by the television networks for deciding, at the last possible moment, to reexamine their advertising because of the Surgeon General's report on smoking.

Television officials, who like to let the government to mind its own business and let the industry handle its own problems, in this case used the government report as a crutch to avoid major action until there was virtually no other choice.

THE "RESPECTABLE" argument has been that though evidence about smoking has mounted, it was only fair to let such an authoritative body resolve the heated pros and cons. Suddenly these same television officials found themselves unequipped to handle their problem, though warning signals have been issued for more than a year by no less a person than Leroy Collins, president of the National Association of Broadcasters (NAB).

For European Study...

## Professor Given Grant

Dr. De Lamar Jensen, associate professor of history at BYU, has been awarded a research grant for \$8,000 from the Rockefeller Foundation for International Relations for the coming year.

He will leave for Europe at the end of the summer to do archival research on "international relation theories in early modern Europe."

PRINCIPAL SOURCES for this study will be found in the correspondence, reports and instructions sent between ambassadors and their home governments during the late sixteenth and early seventeenth centuries, according to Dr. Jensen.

These documents are located throughout Europe, but are mainly in France, Spain, Italy, Belgium, the Netherlands and England.

Dr. JENSEN will be accompanied by his wife and five children, and most of the school year will be spent in Paris where the children will attend French schools.

Prior to their return to Provo in September 1965, Dr. Jensen will participate in the Twelfth International Congress of Historical Sciences, meeting next year in Vienna.

Marsha Hoyt soprano, Donna Dalton, mezzo-soprano, and Robert Manookin, harpsichordist, will present excerpts from "Gloria."

The concluding Vivaldi number performed by the chamber groups will be "Concerto in B minor for four violins," played by Karen Lynn, Rondo Jeffery, David Dodart, and Valoy Christensen. Students and public are invited to the free performance.

## Graphic Arts Offering Minor Class

The Graphic Arts program in the Industrial Education Dept. of the General College has been expanded from a single survey course in graphic arts procedures to a program offering a minor in graphic arts, said Ronda H. Jenkins, graphic arts instructor.

New courses added are Typographic Layout and Design, Graphic Arts II: Letterpress, and Graphic Arts III: Photolithography.

AT THE PRESENT time BYU is the only university that offers a graphic arts program in the state of Utah and the intermountain area. It is one of 4,000 training schools and universities in the United States which offer graphic arts education programs.

Because of the number of BYU trained industrial education teachers who teach in other states and especially California it was essential that BYU provide a more complete training program in graphic arts, said Mr. Jenkins.

THE NEW COURSE 351, Typographic Layout and Design, is a three credit hour class. It emphasizes the latest methods in cold type set-up, for camera-ready copy, an offset press reproduction method that is used by a growing number of weekly newspapers and printing establishments.

Graphic Arts II: Letterpress, a five credit hour class, is designed to give student advanced instruction in letterpress techniques learned in course 320. Typography and Printing Processes.

Graphic Arts III: Lithography is a five credit hour class. It will give students advanced instruction in offset press techniques. The principles of offset camera work, film stripping procedures and plate-making for offset press work will be taught. Instruction on photographic silk screen stencils will also be given.

THE GRAPHIC ARTS laboratory is in 206 Snell Industrial Education Bldg. The school has about \$25,000 invested in the laboratory equipment, said Mr. Jenkins.

Mr. Jenkins holds a journeyman rating in the graphic arts field and has been a shop supervisor. He is a Regional Vice-President of the International Graphic Arts Education Association.

## BYU Press Employee Receive Service Honors

Seven employees of the BYU Press honored in Salt Lake City Thursday night for their years of service, receiving certificates from the Printing Industry of America.

The honors came, according to Press Manager Haymore, under a new program instituted by the International Brotherhood of Printers which awards a certificate from the Printing Industry of America to those who have been in the printing business for 15 years or more.

Among the seven receiving certificates were Lin E. Brown, Harold C. Tolley, D. E. Alexander and W. R. Butler, all linotype operators.

Also receiving certificates were A. Lenn Singleton, cutter and binder; Richard F. Beach, letterpressman; and Ronda H. Jenkins, compositor.

Other press employees are eligible for similar honors.
